

AID India

Eureka Education programs, Tamil Nadu

Goals:

- Every child gets confidence to explore and learn on their own receives quality education and completes high school
- Girls build their strength, self-confidence and self-defense skills

This year, Eureka initiatives have reached children in 250 of the most marginalized villages of Tamil Nadu.

Impacts

- Pre-primary classes (3-6 years) with games and activities designed to improve early development
- innovative methods to build language and math skills, with extra support given wherever needed
- Eureka Schools aim to restore baseline skills and confidence affected by pandemic
- Physical sports and activities for girls are emphasized

\$1000 supports 7 village libraries

Grassroots action for an empowered India

- Involve community members in all aspects of teaching and administration
- Prioritize holistic development, including physical and emotional health
- Provide a safe space for girls to grow and learn
- Help children enjoy education
- Work towards caste and gender justice by ensuring equal opportunities
- Widen the scope of opportunities for these children's futures

Begum Rokeya Academy

Mohamad Bazar Backward Classes Development Society, West Bengal

Goals:

- Give young girls life opportunities in an area where most men work as daily labourers or migrant workers in quarries and factories, leaving women and children at home
- Combat child marriage, female foeticide and sex trafficking through holistic education

Impacts

- Education supplements regular curriculum with leadership building, sports and vocational training
- Groups of trained girls, **Naribahini**, build gender awareness and sensitization through group discussion
- Social awareness programs through dance and drama address evils of child marriage and basic health issues, and help portray girls as equal members of society

\$1000 supports 5 girl students annually.

Kadam Resource Center for Girls

Center for Development., Gujarat

Goals:

- Provide comprehensive education to adolescent girls from underprivileged families
- Provide a safe space for development and a way out from child labor and early marriage

Girls' mothers are also supported who are often the sole breadwinners.

Impacts

- Continuous support to 30 girls at a time until they secure a Higher Secondary Certificate
- Training in English, computer skills, and effective communication
- Residential and counseling facilities for girls lacking family support

\$1000 supports school fees for 12 students for a year.

Aatala Badi

Tribal children's rights, Andhra Pradesh

Goals:

- Enlist local tribal youth to teach children in the local language (Gondh) and Telugu in community-built schools
- Make schooling enjoyable for children who travel hazardous routes everyday only to reach poorly functioning schools.

Every year, 75-100 children aged 5 to 10 are educated through these 5-7 play schools!

Impacts

- AID has supported 5-7 schools and covered additional ones that lost funding during Covid.
- Although the community speaks Gondh, they teach Telugu and English in grades 1-3 using games and songs as learning tools.
- Play schools prepare children to attend local residential schools run by Integrated Tribal Development Authority (ITDA)

\$1000 supports a teacher's salary for a year.
